their performance each day will be marked by marvelous feats. Santuci is an accordion player and his instrument is so constructed that he can play the most intricate of classic music as well as popular and ragtime airs.

### SILOS AT FAIR.

Management Harvests Twelve Acres of Sorghum for Demonstration Work.

Dallas, Texas: Along with its other many duties the management of the State Fair of Texas at Dallas is actively engaged in farming. Twelve acres in the race track infield were planted in sorghum this year and the yield averaged twenty tons to the acre. The crop will be used in silo demonstration work at the twenty-eighth annual exposition which begins Saturday, October 18 and closes Sunday, November 2. Silo demonstration work will be one of the big educational features at the coming exposition. The silos will be connected with the new livestock barns erected this year at a cost of \$40,000 and silage will be used in feeding exhibit cattle, horses, sheep and other stock.

One mammoth silo at Fair Park

washed by his own servants. Folding chairs, table—in fact, everything which one may wish—is arranged and all without a word. At a tenth the cost of and sleeps like a child and is a thousand miles from the tipping zone.—Roman Herald.

A witty professional man was chatting with some women about a friend of theirs who was notoriously henpecked. His better half makes him walk a chalked line, and woe be unto him if the deviates from it.

"He is a model husband!" exclaimed

and other stock.

One mammoth sile at Fair Park alone holds 100 tons and there are several others that were used in taking care of the remainder of the crop. Experiments carried on by the bureau of animal husbandry of the state Agricultural & Mechanical College have shown that silage may be made from either corn, sorghum, Kaffir corn or mile maize and can be used profitably in beef production. Since the first sile was placed at Fair Park hundreds have been erected in various portions of the Southwest.

STATE FAIR DAIRY FARM. Butter Making and Judging and Me-chanical Milking a Feature.

Dallas, Texas: Butter making and butter judging, mechanical milking and a model dairy farm will feature the dairy division of the 1913 State Fair of Texas at Dallas, which begins Saturday, October 13 and closes Sunday, November 2. The division will be of interest to every man, woman and child that visits the Fair, declares President J. J. Eckford. He said:

"The model dairy farm will consist of twenty cows which will be mechan-

Ically milked twice each day. Silage along with other feeds will be used in milk production the model farm to be connected with a silo by automatic feed carriers. Automatic litter carriers will deliver the bedding, etc., from the barns directly into manure spreaders. The product of these cows will be separated, the cream will be ripened and churned according to the latest scientific methods, all of which will be instructive and interesting.

"We have made a change in the classifications this year in which only one entry of butter, will be permitted from each herd All other butter made from the same farm by different butter makers will be entered in another class that will not be subject to competition for the Holland trophy cup. Premiums have been increased in every class. The butter on exhibit will be judged by an expert from the United States agricultural department."

Landlady (to lodger)—Come into the kitchca, sir, and see the grand procession as it starts.

"I can see it well enough from my own room window." "Of course, but I've let that."-FileWEDDING OF THE WATERS.

Announcement comes from Panama that on September 26 the dike will be removed in the canal permitting the lawless current of the Atlantic and the restless tide of the Pacific to unite for all eternity. For the first time in the history of man's achievement two oceans will be thrown together in a spectacular "wedding of the waters." For them there will be no turning back when once the step is taken; no annulment of the mar riage vows of the seas. Although the waves of unrest may shake the foundation of their matrimonial seas, no kindly court will release them from

### FOR SALE.

I control some 400 acres southwest of city, beginning one-half mile from city limits, all facing on Gentry road; good average upland and part of it well improved. I will cut it and sell in small farms of 10 acres and up in most any part of the tract. The location for home and building purposes is not surpassed around here and I desire to locate actual home builders. Deep water of excellent quality lies at about 210 feet, and if desired wil supply a well where wanted. This is your chance to get a small farm close in and much of it overlooking the city of Brvan. Prices range from \$35 to \$80 per acre, your choice in locating. Easy terms. This doesn't include my home place which is not for sale. Also have two city lots close in, on west side. Price \$708.
